

Julia Golzar - MY ART

Coming from a multi cultural European family and living and travelling in Europe, India, the US and Australia has opened my eyes to different cultures and ways of life.

I'm interested in archetypes, the universal, archaic symbols, images and personas that derive from our collective unconscious.

It's fascinating how the archetypes are expressed in different cultural settings and historical times. This exploration often informs my artwork.

I sometimes include well known images into my paintings to convey an idea or a concept. Drawing on popular culture or old masterly painting and sculpture allows me to play with and explore the meaning of life and art.
